

Power Sector in Maharashtra.

Dr. Sunil S. Shete*, Riteshkumar Singhal**

Abstract

This paper deals with the power sector of the state of Maharashtra. This paper discusses the shortage of power in the state even after some reforms were initiated in the sector. Power generation is very important for the state if it wants to remain as one of the top industrial states in India.

Key Words: Environmental Issues, Jaitapur Nuclear Power Project, Load Shedding, Maharashtra State Electricity Board, Power Sector, Power Transmission, Power Tariffs.
